

CSI - SJCE

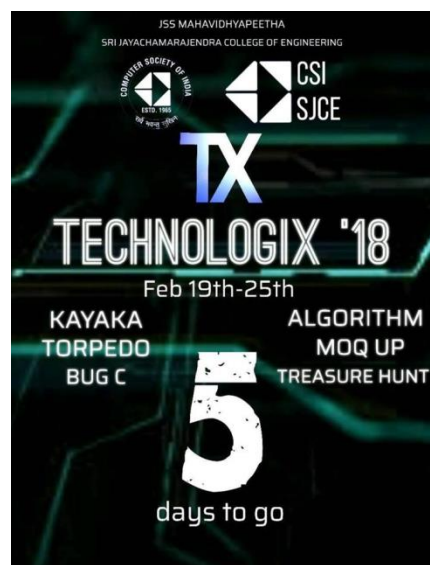

The Computer Society of India, SJCE Student Chapter has been instrumental in promoting expertise in the field of Information Technology. In this endeavour, it has devoted itself to the intellectual needs of enterprising students of the country, through various activities.

Some of our activities include:

- Encouraging industry-institute interaction through various presentations.
- Acquainting the students with the latest technology in the industry by organising guest lectures and talks.
- Organising technical sessions, courses and workshops for students about topics related to the field of Information Technology.

Report on TECHNOLOGIX `18

TECHNOLOGIX is the technical fest organised by CSI SJCE student chapter annually. It is a convention, where students and industry experts interact and ideate disruptive and cutting edge technology. The fest aims at providing students with relevant industry interaction to ideally shape their future. It was monumental in improving the knowledge of the students in both the technical and managerial domains. It exposes them to the current industry expectations and standards, and prepares them for the competitive corporate world. TECHNOLOGIX`18 was the 12th edition of the annual fest which was held from 19th to 25th February 2018 in the serene environs of Sri Jayachamarajendra College of Engineering Mysuru under the banner of Computer Society of India, SJCE Student chapter Mysuru.
