

Bringing the newsletter helps students to tune their minds to new ideas and approaches. In this context the department is publishing yearly technical newsletter 'INSIGHT'. The newsletter is a rich concoction of newer developments in the field of biotechnology. This newsletter emphasizes on multi-disciplinary area of biotechnology. Apart from the technical articles the INSIGHT also brings forth the creative talents of the students. The newsletter has been a literary effort to encourage and put forward the scientific writing skills in students. Since the inception it has created a platform for one and all in the department of biotechnology to express their abilities in science and technology.
